PROFESSIONAL SUMMARY

Software developer (SENA Software Analysis & Development graduate, July 2026) with hands-on experience at a Microsoft Partner building full stack and AI-powered applications in production, plus data automation and Power BI reporting. I work with React, TypeScript, .NET/C#, Python/FastAPI and Azure AI Foundry, and value observability, cost-efficiency and clear communication.

TECHNICAL SKILLS

- Frontend: React, TypeScript, Next.js, HTML/CSS
- Backend: C#/.NET, Python, FastAPI, Java/Spring Boot (projects), Node.js, REST APIs
- AI & Cloud: Azure AI Foundry, OpenAI models, Azure Document Intelligence, Azure AI Search, Application Insights, Agno, Azure DevOps (CI/CD), Azure CLI
- Data: SQL Server, PostgreSQL (basic), Power BI (basic DAX), Excel
- Tools: Git/GitHub, Docker, Claude Code, Postman | Languages: Spanish (native), English (B1, working toward B2)

PROFESSIONAL EXPERIENCE

Software Developer — MAS Global Consulting (Microsoft Partner) *Dec 2025 – Jun 2026*
Full-time · Medellín, Colombia · On-site

- Developed full stack applications with React, TypeScript and .NET/C#, translating business requirements into practical, scalable software solutions.
- Built an AI résumé-analysis MVP with Azure Document Intelligence that compares résumés against job descriptions, cutting recruiters' screening time by 40%.
- Led development of an enterprise chatbot with Python, FastAPI and Agno, integrating OpenAI models through Azure AI Foundry and reducing website navigation time by ~20%.
- Supported cloud applications on Azure and Azure DevOps: Application Insights monitoring, CI/CD trigger automation, and Azure AI Search cost cut from $70 to $0 per month.
- Collaborated with the team and stakeholders on requirements and troubleshooting, and wrote a scalability report for 50, 100 and 200 users.

Software Development Assistant — Presencia Colombo Suiza *Jul 2026 – Sep 2026*
Software development, data analysis and process improvement · Medellín, Colombia · Hybrid

- Developed Python automation scripts to streamline repetitive tasks and improve data-processing workflows.
- Extracted, cleaned and consolidated data from multiple Excel sources, standardizing reporting and improving data quality.
- Used SQL and relational data structures to organize, validate and analyze information for operational reporting.
- Developed and maintained Power BI dashboards and reports to visualize KPIs and improve organizational visibility.
- Supported the development of web-based tools and prepared technical documentation to improve workflows and knowledge transfer.

FEATURED PROJECTS

- KhozAI — practice-routine generator for guitarists (Next.js, TypeScript, Supabase, PostgreSQL); live demo and DEV.to article.
- AI Chat Assistant — streaming chatbot with JWT auth and multi-conversation management (React, FastAPI, Groq API).
- Band & Rehearsal Manager — rehearsals, attendance and setlists on a kanban board (React, TypeScript, ASP.NET Core, SQL Server).

EARLIER EXPERIENCE

- Technical Support Agent, Fibrazo (ISP) — Dec 2024 – Mar 2025 · phone/chat support, ticketing, NOC escalation.
- Contact Center Agent, Grupo Empresarial Movalto — Dec 2022 – Jan 2024 · multichannel support, Excel databases.

EDUCATION

Associate Degree (Tecnólogo) in Software Analysis and Development
SENA – National Learning Service, Colombia | 2024 – 2026 (Graduated July 2026)
